Work Experience

Dsignz Media
DEC 2022 - Present

- Built responsive user interfaces (UI) using HTML, CSS, and JavaScript.
- Enhanced interactivity with JavaScript libraries (jQuery) and frameworks (Angular/Ionic).
- Worked on projects that involved integrating third-party libraries and RESTful APIs.
- Developed interactive web applications with dynamic content using AJAX for seamless data retrieval and manipulation.
- Familiarity with Cordova plugins for accessing device features and native functionalities in Ionic applications.
- Proficient Angular developer adept at crafting dynamic user interfaces and components within the TypeScript-based Angular framework
- Implemented secure authentication and authorization systems in Laravel applications, ensuring data integrity and user privacy.
- Developed the CMS with a modular architecture, allowing for easy customization and future expansion with additional features.
- Utilized PHP and Laravel to build scalable and secure backend systems, integrating with MySQL databases for data storage and retrieval.

Projects

Supportive Souls

Founded a trusted scholarship program for students, emphasizing transparency and timely support. Streamlined application processes and rigorous evaluations ensure impactful contributions to students' educational pursuits.

Students Training Management System

Engineered an intuitive Students Course Management System for seamless enrollment, assignment tracking, and grading, with user-friendly interfaces for enhanced educational experiences.

Connecting Dentist Management System

Created a collaborative platform enabling dentists to send and accept requests for shared clinic spaces. Facilitated seamless coordination, fostering a network of dental professionals with shared clinic access.
